

**Project:** TREE REPLACEMENT SERVICES - SPRING 2015

**Date:** March 5, 2015

**Engineer:** N/A

**RE:** Addenda #1  
**# of Pages:** 1

---

---

The following revisions and/or clarifications are to be made to the proposal documents for TREE REPLACEMENT SERVICES - SPRING 2015. They are a result of issues discussed at the pre-proposal conference held on February 23, 2015 and any questions received by close of business of February 26, 2015.

**Clarifications:**

1. N/A

**Questions:** (answers to all question are shown in Italics immediately after the question) for example:

1. What permits will I need to perform the work? *Only Battery Park City Authority permits will be required. There are no fees associated with these permits.*
2. Can I grind the stumps, especially those at Rector Place? *Yes, proposers should state in their proposal means and methods of removing the stumps in their entirety.*
3. I plan on getting the trees at Halka, does that mean I need to pay for someone from BPCA to go and inspect them? *Regardless of the nursery selected, the successful proposer will be required to bring a representative of the Battery Park City Parks Conservancy to the nursery to assist in the tagging of the required trees.*
4. It looks like these trees were planted a year or so ago, wondering if perk tests were done then, and if it is going to be necessary again. *Percolation tests were not performed under the last contract. For this contract, percolation tests will be required.*
5. Where do I get the soils required, are there recommended vendors. *The successful proposer can purchase the soils from any vendor that can provide the required Soils A and/or B. The Battery Park City Parks Conservancy does not have a recommended vendor list for this project.*
6. Will we have to pick up the cobblestones outside of the area where the trees are planted and replace with the S2 soil, or was this done the last time? *No, for those tree pits that have existing pavers, the successful proposer will be required to remove the pavers for the planting of the tree and then reinstall them upon completion.*
7. Will we have to water these trees for the duration of the guarantee period? *No. The Battery Park City Parks conservancy will water the trees.*
