**Description:** Description of Goods or Services to Be Bid

Battery Park City Authority d/b/a Hugh L. Carey Battery Park City Authority ("BPCA") requests proposals (individually a "Proposal" and collectively the "Proposals") from general construction contractors or metal contractors (individually a "Proposer" and collectively the "Proposers") to provide BPCA with general contractor services for the Battery Park City Ballfield and Community Center Resiliency Project (the "Project"). The Project will consist of general contractor services related to the construction, fabrication, and installation of an interim flood barrier (the "Ballfield Barrier System") along the northern, eastern, and southern boundaries of the Battery Park City Ballfields (the "Ballfields" or the Project Site"), located immediately west of West Street and between Warren Street and Murray Street. The Ballfield Barrier System will have an intended useful life of up to ten (10) years and is expected to remain in place until the completion of the North Battery Park City and South Battery Park City Resiliency Projects, at which time the Ballfield Barrier System will be rendered redundant based upon current 2050's one hundred-year storm projections. The Ballfield Barrier System will consist primarily of eight hundred (800) linear feet of metal panels, with

decorative metal overlays, installed within a new concrete grade beam and attached to the Ballfield's existing perimeter fencing. Associated drainage and landscaping work is also required. A detailed Scope of Work for which the selected Proposer will be responsible is attached as Exhibit A (the "Services" or the "Work"). The drawings and specifications are currently at ninety-five percent (95%) completion. The ninety-five percent (95%) design documents are attached to this RFP as Exhibit H. One-hundred percent (100%) design documents will be issued by an addendum to this Request for Proposals in mid-November, in advance of the Proposal due date and, when issued, shall fully replace and supersede the ninety-five percent (95%) design documents. All references to the "Construction Documents" throughout the RFP, and all obligations related thereto, refer to those prospective one-hundred percent (100%) design documents (the drawings and specifications associated with this request for Proposals).

Interested parties may download the complete request for proposals ("RFP") via the link provided below or by visiting BPCA's website at [www.bpca.ny.gov](http://www.bpca.ny.gov) and clicking on the "Opportunities" tab. **All Proposals must meet the requirements listed in the RFP.**

As stated in the RFP, firms interested in responding to the RFP must complete the Mandatory Forms Packet located on BPCA's website at <http://bpca.ny.gov/wp-content/uploads/2015/03/Vendor-ResponsibilityQuestionnaire.pdf>. The completed forms must accompany the firm's proposal.
